NTA per share post-tax	\$1.37

Net Tangible Asset Breakdown Since Inception¹

Founders' Commentary

Exciting times for two Bailador portfolio companies

Two Bailador portfolio companies have achieved significant milestones to set them up for strong growth:

1. Straker Translations [ASX:STG] raised A\$25m in a heavily oversubscribed capital raising. Straker released guidance to the ASX of revenue of at least NZ\$50m in the financial year to 31 March 2022 (at least 60% growth rate over FY21) at an increased gross margin. The financial market responded very positively, with Straker's share price up 30% at 31 May compared to the prior month.
2. Stackla was acquired by Nosto, a leading e-commerce personalisation platform with operations in New York, Los Angeles, London, Paris, Berlin, Stockholm and Helsinki. Bailador accepted shares in Nosto in consideration for its position in Stackla, so will have exposure to the larger fast growing business of Nosto in the attractive industry segment of e-commerce personalisation.

Straker Translations

Straker released its full year results for the year to 31 March 2021 (as a New Zealand headquartered company, its financial year end is 31 March). Straker reported revenue of NZ\$31.3m, up 13% on prior year, and positive operating cashflow for the second half of FY21.

This is a strong result considering that the business was impacted by Covid in a number of jurisdictions for much of the period. Importantly, Straker has set itself up for very strong growth in FY22.

For the first time since listing on the ASX, Straker provided formal guidance of revenue of at least NZ\$50m for FY22, which would represent growth of at least 60% compared to FY21. Straker also guided that gross margin percentage will improve, indicating that the revenue growth is of high quality, and that at least \$10m of the revenue increase will be due to organic growth.

The chart below showing Straker revenue was released to the ASX:

A key driver underpinning confidence in the Straker FY22 performance is revenue growth from a key client, IBM. Straker previously announced a major contract win with IBM. Straker has now released the chart below, showing the rapidly increasing word count from IBM being processed by Straker:

Straker has successfully completed a \$25m capital raising, which was heavily oversubscribed. The proceeds will be used in part to extinguish a debt facility which had been put in place to fund the acquisition of the US headquartered smaller peer LingoTek. Straker is also building its production capacity to handle the larger demand from clients such as IBM, increasing its enterprise sales capability, and will continue to seek selective acquisitions in line with its core strategy.

Bailador co-founder Paul Wilson is a non-executive director of Straker Translations supporting Bailador's ongoing investment in Straker. Bailador chose to take up its pro-rata allocation as well as sub-underwrite the Retail Entitlement Offer up to a further \$5.1m. Bailador's final allocation will not be known until the conclusion of the Retail Entitlement Offer on 24 June 2021.

The offer price at which Bailador will invest is set at \$1.90. The closing price of \$2.29 at 31 May represents a 21% increase over the offer price. Excluding this

additional investment, **the valuation of Bailador's existing investment in Straker increased by 30% for the month to 31 May, representing an NTA increase of \$3.4m.**

Bailador is confident in the short and medium-term execution by Straker, and excited by the long-term prospects of Straker's cloud-based platform in the huge addressable language services industry segment.

Stackla

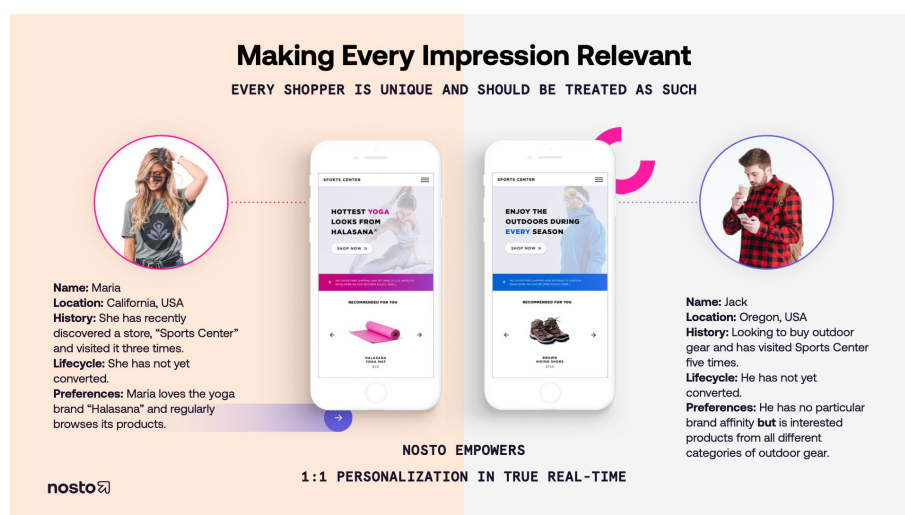

As announced to the ASX on 3rd June 2021, Stackla has entered into an agreement to be acquired by Nosto, an AI-powered e-commerce personalisation platform.

The acquisition was structured as a predominately share-based transaction. **The valuation of Bailador's investment in Stackla will remain unchanged at \$11.5m, but will transition to a shareholding in Nosto upon completion.** The agreement remains subject to certain conditions to closing.

The acquisition of Stackla by Nosto represents a significant milestone on the Stackla journey. The Stackla UGC offering is a natural fit to complement the existing Nosto platform, and we're pleased that the Stackla team will continue as part of the Nosto business.

Nosto is a larger well capitalised business with a leading position in the fast-growing space of e-commerce personalisation. The fundamental proposition is:

- Retail e-commerce sales are growing extremely rapidly worldwide
- There is increasing demand for the personalisation of the e-commerce experience
- The Nosto platform provides e-commerce personalisation
- The Stackla User Generated Content tech capability enhances the Nosto offering

Making Every Impression Relevant
EVERY SHOPPER IS UNIQUE AND SHOULD BE TREATED AS SUCH

Left User (Maria):
Name: Maria
Location: California, USA
History: She has recently discovered a store, "Sports Center" and visited it three times.
Lifecycle: She has not yet converted.
Preferences: Maria loves the yoga brand "Halasana" and regularly browses its products.

Right User (Jack):
Name: Jack
Location: Oregon, USA
History: Looking to buy outdoor gear and has visited Sports Center five times.
Lifecycle: He has not yet converted.
Preferences: He has no particular brand affinity but is interested in products from all different categories of outdoor gear.

NOSTO EMPOWERS 1:1 PERSONALIZATION IN TRUE REAL-TIME

Please refer to the appendix to this shareholder update for some further Nosto overview information.

Stackla's deal with Nosto represents a great comeback story following Stackla's short, but damaging exclusion from the Facebook platform in 2019. At Bailador, we are very proud of the Stackla team, led by founders Damien Mahoney and Peter Cassidy, showing tremendous resilience and adaptability. Dealing with unexpected circumstances, they rallied, focused on great customer experiences, and continued to deliver results.

Bailador is pleased to continue the journey with Nosto. This third-party transaction validates the valuation of Bailador's investment, and provides continuing exposure for Bailador shareholders to the attractive e-commerce personalisation segment.

Bailador Co-Founders

Highlights

Investment Focus

Bailador typically invests \$5 million or more in businesses within the technology sector that are seeking growth stage investment.

Companies we invest in typically share the following characteristics:

- Run by the Founders
- Two to six years in operation
- Proven business model with attractive unit economics
- International revenue generation
- Huge market opportunity
- Ability to generate repeat revenue

Important verticals we seek to invest in within the technology sector include: SaaS and other subscription-based internet businesses, online marketplaces, software, e-commerce, high value data, online education, telecommunication applications and services.

Movement in NTA

BTI's NTA per share (pre-tax) was unchanged at \$1.53.

Key movements are as follows:

Increase in valuation of Straker Translations share price to \$2.29	2.4c per share
Effect of \$24m capital raise completed in May	-2.4c per share

SiteMinder

SiteMinder launched [SiteMinder Multi-Property, a new rate distribution and management platform](#). Hotel chains and groups can now enter rate plans once and have the details disseminated across all their properties – a scale that is unmatched by other distribution technologies due to SiteMinder's open connections to 1,000 property management systems, channel managers, booking channels and hotel applications. Additionally, hotel chains and groups can use SiteMinder Multi-Property to launch enterprise-wide campaigns at a fraction of the time they used to, run continuous health checks of their setup, and produce customised reports.

Sankar Narayan, SiteMinder CEO, spoke to PhocusWire for its feature [In The Big Chair](#), which interviews c-suite executives. He answered questions on the COVID-19 pandemic, a possible IPO and his predictions for the hotel tech space.

SiteMinder launched the Women@SiteMinder Employee Resource Group. The initiative aims to change the dialogue in the workplace through active conversations, strong networks and ongoing awareness.

Instaclustr

Careen Redman-Matthews, VP of People at Instaclustr, spoke to [Women Love Tech magazine](#) about creating a diverse workplace and the importance of "culture adds" rather than "culture fits".

Stefan Miklosovic, Senior Software Engineer at Instaclustr, has been [named a Committer to the open source Apache Cassandra project](#). Invited and voted in by the Apache Cassandra Project Management Committee (PMC), committers have write-access to the open source database's repositories and resources.

Stackla

Stackla

As announced in [Bailador's ASX release on Thursday 3rd June](#), Stackla has entered into an agreement to be acquired by [Nosto, an AI-powered e-commerce personalisation platform](#). The [Australian Financial Review](#) reported on the transaction and Stackla co-founders Damien Mahoney and Peter Cassidy [released a statement](#).

Straker Translations

Straker announced it has launched a [fully underwritten equity raising to raise A\\$25 million](#). [Click here](#) to read Straker's Capital Raise Presentation. The [New Zealand Herald](#) spoke to CEO Grant Straker about the raise.

Straker [released its FY21 results](#) to the ASX. The company said it expects revenue for the 2022 financial year to reach over NZ\$50 million at an improved gross margin, an uplift of more than 60% on the NZ\$31.3 million revenue it reported for FY21.

Standard Media Index

Standard Media Index

SMI appointed [Rick Bruner as Head of Insights and Analytics](#). Rick is a media research veteran. He was most recently President of Central Control, a media analytics firm, and will remain Chairman of its board. Rick will play an instrumental role in the continued growth and development of SMI's Insights and Analytics practice.

Rezdy

Rezdy announced a [partnership with Tourplan](#), the leading technology platform for tour operators and destination management companies (DMCs). A new live integration will enable tour operators and DMCs on Tourplan to make real-time bookings of all tours and activities listed on the Rezdy Marketplace, as well as access to products via enterprise reservation systems such as Merlin and SeaLink Travel Group.

BROSA Brosa

Brosa appointed [Anna Heinrich as its new ambassador](#). Anna is a lawyer, media personality, wife and mother who is originally known for meeting her husband on The Bachelor in 2013.

Bailador

Paul Wilson, Bailador Co-Founder and Managing Partner, was interviewed by [Chris Judd for his podcast Masters of the Market](#).

The capital raise, including the Security Purchase Plan (SPP), announced in April 2021 was completed in May 2021. The SPP provided all existing Bailador shareholders the opportunity to participate at the same price of \$1.37 as investors in the private placement. The SPP raised approximately \$4m, bringing the total of the two capital raising elements to approximately \$24m. The funds will primarily be used by Bailador to continue to invest in new and existing opportunities in the technology sector.

Nosto introduction

Nosto is a leading e-commerce personalisation platform with operations in New York, Los Angeles, London, Paris, Berlin, Stockholm and Helsinki. The company was founded in 2011 by Juha Valvanne, Antti Pöyhönen and Jani Luostarinen. Unsatisfied with the impersonal e-commerce experience offered to shoppers, the trio decided to turn these limitations into opportunities, creating a platform for e-commerce brands to deliver the experience shoppers deserve.

What problem is Nosto solving?

Nosto enables retailers to deliver personalised digital shopping experiences at every touchpoint, across every device. An AI-Powered Commerce Experience Platform designed for ease of use, Nosto empowers retailers to build, launch and optimise 1:1 omnichannel marketing campaigns and digital experiences without the need for dedicated IT resources or a lengthy implementation process. Brands use Nosto to craft personalised e-commerce experiences that drive conversion and increase revenue.

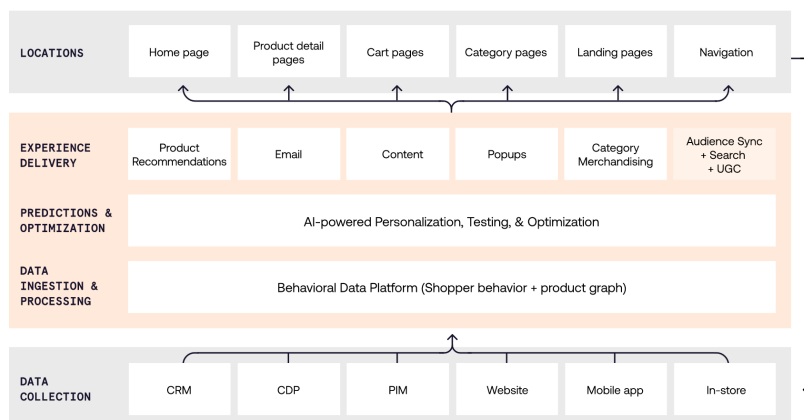

Nosto's product offerings

Nosto offers a complete personalisation solution for its customers across:

- **Product Recommendations:** Utilising behavioural data to show the most relevant products to every shopper
- **Dynamic Bundles:** Creating product bundles using dynamic filtering to encourage multiple purchases
- **Category Merchandising:** Controlling how products are displayed, personalised based on shopper behaviour
- **Segmentation & Insights:** Segment audiences based on behaviours, demographics, and affinities
- **A/B Testing & Optimisation:** Prove which personalisation and merchandising strategies work
- **Content Personalisation:** Utilising behavioural data to personalise onsite content based on shopper affinities and interests

Nosto's commerce experience platform

Nosto's commerce experience platform allows customers to quickly deploy fully personalised, integrated commerce experiences across product recommendations, content, triggered overlays and popups, category pages, and more.

Customer successes to date

Fashion Bunker saw a 6% increase in click through-rates and a 16% higher conversion of first-time visitors

LeSportsac achieved a 2.4x increase in conversions using Nosto

Pura Vida Bracelets saw a 14x return on investment through Nosto-powered experiences

Nosto Overview

...and Our Mission Matters Today More than Ever Before

CONSUMER BEHAVIOR IS CHANGING

- We are more connected than ever before
- Shopping journeys start and end online
- Shoppers expect consistent personalized experiences across channels

RETAIL IS CHANGING

- Digitalization of commerce is the greatest transformation of contemporary society
- Change in consumer behavior has changed the rules of retail
- Emerging new retail models such as D2C

RETAILERS AND BRANDS NEED A WORKING SOLUTION

- Soaring need for a solution to deliver 1:1 personalization across all digital retail channels
- Increasing request for softwares that saves time and automates work
- Emerging need for a platform vs operating with multiple point-solutions

Making Every Impression Relevant
